I. Purpose:

The purpose of this policy is to establish guidelines for the non-uniform dress and attire for all Sheriff's Office employees.

II. Policy:

Sworn and non-sworn employees may be permitted to wear civilian attire. Sworn personnel may be permitted to wear civilian attire by their division commander. Both sworn and non-sworn employees shall dress professionally, remaining aware that their appearance reflects upon the Sheriff's Office. All clothing shall be pressed, if needed, and kept in good condition. Division commanders have the authority to waive these standards to meet the individual needs for special assignments (e.g. Narcotics Unit). The Sheriff shall have the final authority on determining the appropriateness of attire.

Badges on sworn employee clothing shall be rank specific in color. Sworn personnel with the rank of deputy shall have silver lettering and badges, sworn personnel with the rank of sergeant and higher shall have gold lettering and badges. All embroidery shall be done only at Sheriff's Office approved locations. Embroidered Sheriff's Office logos shall be of a contrasting color to the clothing item (i.e. white lettering on dark colors, black lettering on light colors). Only approved logos shall be used. Logos on clothing shall be visible and legible.
