		APPROVED: *GREG LONDON*		

CHAPTER TITLE	RESOURCES
GENERAL	

SUBJECT	CROSS REFERENCE
COUNTY PROPERTY AND EQUIPMENT	

I. Purpose:

The purpose of this policy is to establish the guidelines for the use and maintenance of county property and equipment.

II. Policy:

The Sarpy County Sheriff's Office accepts responsibility for the care and control of the valuable county equipment entrusted to its use. All employees are expected to properly use and maintain the equipment and materials assigned to them.

III. Procedures:

A. Responsibility:

1. No employee shall at any time loan assigned county property or equipment to another individual or permit assigned county property or equipment to be used by any other individual unless directed by a command officer.

2. County property and equipment shall not be used for personal use or gain, nor shall county property or equipment be used for private purposes unless specifically described in policy.

3. All assigned county property or equipment shall be clean and in working order. An employee shall immediately notify his or her supervisor if equipment fails to function properly.

4. Employees shall not tamper with, repair, or alter any county property or equipment unless properly trained and authorized to do so.

B. Damaged County Property or Equipment:

1. If any county property or equipment assigned or used by an employee is lost or damaged in any manner, the employee shall report the incident to his or her supervisor immediately.

2. The employee shall complete a written report, including a report number, detailing the loss or damage of any property or equipment. The report shall be forwarded to the employee's supervisor.

3. The supervisor shall report the loss or damage of county property to his or her division commander. In the case of substantial loss or damage, the supervisor shall also notify the ADC.

4. In the case of damage to a Road Patrol Unit, the supervisor shall update the Patrol Unit Damage Log. The date, report number, and description of the damage shall be entered under the appropriate Patrol Unit designation and the log shall be saved.

5. Supervisors shall typically initiate a Line Investigation on all lost or damaged property. This responsibility may be waived by the division commander if the property loss or damage is minor, and the division commander does not believe disciplinary action is warranted. The commander shall complete a brief supplemental report with the original report number that details the reason why the waiver was granted.

6. An employee may be held responsible for the loss or damage to county property or equipment if an investigation discloses negligence, carelessness or inattentiveness. Under these circumstances, an employee may be required to reimburse the county for the cost of the item and/or the employee may be subject to disciplinary action.
