	SARPY COUNTY SHERIFF'S OFFICE PAPILLION * NEBRASKA **GREG LONDON** **SHERIFF**	DATE ISSUED 01/12/18	DATE REVISED **10/23/18**	DATE REVIEWED 02/02/25
		APPROVED: *GREG LONDON*		
CHAPTER TITLE GENERAL	RESOURCES			
SUBJECT NALOXONE (NARCAN)	CROSS REFERENCE			

I. Purpose:

The purpose of this policy is to establish the guidelines for the proper use of Naloxone (Narcan); establish the documentation procedures required upon its use and to establish the procedures for its proper storage and maintenance.

II. Policy:

It is the policy of the Sarpy County Sheriff's Office to administer intranasal Naloxone to those individuals who are experiencing the signs and symptoms of an Opioid overdose. Only those individuals trained in the use of Naloxone shall administer the opioid antagonist.

III. Procedure:

A. Training: Prior to using Naloxone personnel shall receive training including:

1. An overview of Nebraska Revised Statute 28-470, which permits individuals to administer Naloxone to a person who is apparently experiencing or likely to experience an opioid-related overdose;

2. Signs of an opioid overdose;

3. Universal safety precautions;

4. Administering Naloxone;

5. CPR;

6. Reporting requirements;

B. **Division Commander Responsibilities**: It shall be responsibility of each division commander to determine the need and allocations of Naloxone within their assigned division.

C. **Personnel Responsibilities:** It shall be the responsibility of each individual assigned Naloxone to ensure that it's properly maintained and stored while under their control.

D. **Naloxone Coordinator:** For those divisions utilizing Naloxone, the division commander shall appoint an individual to perform the duties of Naloxone Coordinator. The Naloxone Coordinator shall be responsible for maintaining a divisional inventory of the Naloxone, including adequate supply, integrity, and expirations dates. Any lost/damaged naloxone shall be reported to the divisions Naloxone Coordinator.

E. **Naloxone Program Manager:** The patrol division commander shall appoint a sworn member to act as the Naloxone Program Manager. The program manager shall be responsible for the agency's overall Naloxone program, including the agency's prescription. All expired Naloxone will be forwarded to the program manager.

F. **Naloxone Use:** When deploying Naloxone personnel shall:

1. Utilize universal safety precautions, such as gloves, mask, and eye protection.

2. Assess the patient's medical condition to include, responsiveness, airway, breathing and circulation. It's reasonable to deliver Naloxone to any unresponsive individual.

3. Advise communications to dispatch EMS personnel to the scene.

4. Insert the nasal mist adapter into the patient's nostril and discharge the Naloxone.

5. Monitor the patient's condition, assess CPR needs and if necessary provide additional Naloxone treatments in the patients opposite nostril after 2-3 minutes.

6. Inform EMS personnel of the patient's condition, treatment and the use of Naloxone.

G. **Reporting:** The administering personnel shall submit a "Use of Naloxone Report" including the nature of the incident, overdose indicators, and number of doses used. The report will be forwarded the division Naloxone Coordinator, Division Commander and Naloxone Manager. The administering personnel shall also

complete an incident report under the appropriate 99-code (i.e. Information report, rescue call). The ADC shall be notified.

H. **Storage**: The proper storage of Naloxone is vital to its overall effectiveness. Naloxone shall be stored:

- At room temperature.
- In its packaging until ready to use.
- Protected from light.
- In a secure location.
