STANDARD OPERATING PROCEDURE			G-9110
	SARPY COUNTY SHERIFF'S OFFICE PAPILLION * NEBRASKA **GREG LONDON** **SHERIFF**	DATE ISSUED 02/12/07	DATE REVISED **12/02/21**	DATE REVIEWED 02/02/25
		APPROVED: *GREG LONDON*		
CHAPTER TITLE GENERAL	RESOURCES			
SUBJECT FORM CONTROL	CROSS REFERENCE			

I. Purpose:

The purpose of this policy is to establish the guidelines for creation, modification, and maintenance of Sheriff's Office forms.

II. Policy:

The Sarpy County Sheriff's Office shall maintain centralized control of the design, modification, publication and distribution of all forms. The centralized control shall be through the Professional Standards Unit. Only the Professional Standards Commander or his or her designee may modify or create forms.

III. Procedure:

A. Form Catalog: The Professional Standards Commander or his or her designee shall maintain an electronic form catalog containing all Sarpy County Sheriff's Office Forms. This catalog shall be maintained on the computer network and on a back-up storage device (e.g. flash drive).

B. Form Creation and Modification: Any employee requesting to have a new form created or requesting to have an existing form modified shall adhere to the following procedures:

1. The employee shall complete a Creation/Modification Request form and attach the proposed form modifications. The proposed form shall be hand-drawn, or computer generated.

2. The electronic Form Creation/Modification Request form shall be forwarded to the division commander of the division that currently uses or will use the form. If the form is currently used or will be used throughout the Sheriff's Office, the Form Creation/Modification Request form shall be forwarded directly to the Professional Standards Commander.

3. The division commander shall review the proposed form or modifications and approve the form, modify the form, or deny the request. If the division commander denies the request, he or she shall notify the requesting employee and no further action shall be taken. If the division commander approves or modifies the form, he or she shall sign the Form Creation/Modification Request form and forward it and the proposed form to the Professional Standards Commander.

4. The Professional Standards Commander shall have the Policy Administrator create or modify the proposed form.

a) If the modifications are minor in nature, the Policy Administrator shall implement and electronically distribute the modified form.

b) If the modifications are substantial in nature, the Professional Standards Commander shall have the form distributed to the command staff for review and approval. The designee shall electronically forward the form to all command staff and allow five (5) days for review. If no command staff member disapproves of the proposed form, the designee shall implement and distribute the form.

c) If any command staff member disapproves of the proposed form, modifications may be made until the command staff member approves of the form. If the command staff member continues to disapprove of the proposed form, discussion regarding the form shall be brought to the next command staff meeting.

5. After a form has been approved by the command staff or the Professional Standards Commander, the Policy Administrator shall complete the following:

a) Place the current month and year at the bottom left-hand corner of the form.

b) Update the master copy computer files and hard copy catalog.

c) Notify the entire Sheriff's Office via e-mail regarding the new form and direct that all forms not bearing the current date be destroyed.

C. **Form Review:** The Professional Standards Commander or his or her designee shall request division commanders conduct a review of all respective forms related to their division at least once every two years to ensure that they are current and meet the needs of the Sheriff's Office.

D. **Form Maintenance:** It is each employee's responsibility to maintain and use current forms and to destroy all old forms in his or her possession.
