SUBJECT ROAD PATROL MISSION STATEMENT		CROSS REFERENCE		

Road Patrol Mission Statement

"The Sarpy County Sheriff's Office Road Patrol seeks to maintain Community Peace through Vigilance, Courage, Integrity, Professionalism and Officer Presence"

The patrol deputy occupies a position of unique responsibility and importance. Deployed in distinctive uniforms and patrol vehicles, patrol deputies are visible symbols of safety and protection. Constantly in public view, their activities often reflect upon the department and the county by which they are employed. Thus, the actions of patrol deputies strongly and visibly serve to influence the public's attitude toward the quality and sufficiency of local government services.

Patrol deputies are frequently the first and only members of the Sheriff's Office to establish contact with citizens. Their actions largely determine the course of subsequent law enforcement activity. It can be said that the actions of the patrol deputy have a direct bearing on the scope and quality of the criminal justice system itself.

As a result of the patrol deputies' role, they are best able to directly affect the peace and tranquility of the community. Patrol deputies have a variety of ways to impact the peace of the community, but the most important are the prevention and suppression of crime.

Patrol Objectives

- Crime Prevention: The goal of the Sarpy County Sheriff's Office is to prevent crimes from being committed. This is accomplished by maximizing the presence of the available road patrol units within the community. Deputies will patrol all areas of the county with a focus on areas of increased criminal activity. The presence of uniformed deputies in marked patrol units can significantly deter and prevent crime. Road patrol deputies will also prevent crime by creating and maintaining strong community relationships. The partnership between the Sarpy County Sheriff's Office and the citizens of Sarpy County is crucial in the prevention of crime.

- Crime Suppression: Though prevention of all crime is the ultimate goal of the Sarpy County Sheriff's Office, crime does occur, and when it does deputies will be available to suppress it. This requires vigilance and courage on the part of all road patrol deputies. Crimes in progress will be dealt with swiftly and with no leniency shown to criminals. Deputies will do everything within their ability and within the law to stop crimes as they occur to include the enforcement of traffic laws.

- Criminal Investigation and Apprehension: Those crimes that are not prevented or suppressed will be investigated by the Sarpy County Sheriff's Office Road patrol. Deputies will respond to all criminal matters and, to the utmost of their ability, professionally investigate and apprehend the perpetrator(s). Depending on the scope of the investigation, the Sarpy County Sheriff's Office Investigations Division may assist with the investigation and/or the apprehension of suspects. This includes the diligent pursuit of criminal convictions within the Sarpy County Courts as well.

- Maintenance of Social Order: The road patrol will also maintain the order and peace within Sarpy County. Deputies are tasked with identifying potential problems and creating solutions to maintain order within the community.

- The Provision of Public Services: The road patrol also will provide public services. As identified above, the road patrol deputy may be the one and only representative of the Sarpy County Sheriff's Office and the larger justice system with which a citizen has contact. Whether that contact is for a traffic accident, a theft report or any of the various calls for service, deputies will provide services in a professional and courteous manner. No service, no matter how small, will be considered menial, as each contact should increase the reputation and professional appearance of the Sarpy County Sheriff's Office.
